

PROTECTS SENSITIVE MEDIA. RESPECTS SENSITIVE BUDGETS.

Introducing FireKing's most affordable Data Safes: the N-Series.

Offering protection from humidity, dust and magnetic fields, these high-quality Data Safes also carry a UL® Class 125 1-hr. fire rating to prevent heat damage.

A galvanized steel plate construction minimizes any risk of corrosion, and a door angle of 125° provides full access to extensible shelves.

Whether you have a lot or a little to protect, we've got 5 models to respect both your media and your budget.
